

Quality Policy

Stubbs Constructions is committed to delivering quality projects; implementing a best practice approach to quality, to ensure a focus on achieving results and continually improving outcomes. We are committed to achieving customer satisfaction by the use of quality procedures which will be operated to meet or exceed the ISO 9001:2015 Quality Management System requirements. The Integrated Systems Manager, who monitors and audits for compliance and improvements, reports regularly to the senior management team.

All employees within the organisation are responsible for the quality of their work. Stubbs Constructions provides ongoing training and has established systems to assist in achieving the required standards. The integrated management system is in constant review, with suppliers and subcontractors encouraged to cooperate.

It is Stubbs Constructions policy to remain an enduring leader of quality building and construction in Tasmania by:

- maintaining a management system based on the standard ISO 9001:2015 and continuously auditing systems and processes;
- maintaining quality management awareness at all levels of the organisation, including suppliers and subcontractors;
- continuously improving the work quality and providing training and direction to identify opportunities where improvements can be achieved;
- supporting the adoption of best practice; embracing cloud-based technologies with contemporary project and financial management systems to achieve organisational efficiencies;
- monitoring and reviewing the finish and technical compliance of completed projects;
- ensuring organisational goals and objectives are met and maintained; and
- ensuring timely delivery, of all projects, to meet expectations and enhance customer satisfaction.
